

CELEBRATIONS UNDERWOODS

270 ACRES URBAN FARMLAND WITH INFINITE POSSIBILITIES.

In order To meet the cosmopolitan city Hyderabad standards, the GOLD SQUARE AVENUES PVT. LTD. presenting a prestigious project combined with income generating farmland consists of Mahogany, Anjeer(Fig), Jafra (Sindhur), Moringa (Munaga), and other fruit & vegetable farms along with sophisticated resort facilities to meet the need of modern living. Apart from the above facilities, the proposed project has got a Real Estate value addition in coming years, due to its proximity to the proposed NIMZ (National Investment & Manufacturing Zone), which is just 20-minutes drive from the project.

Plantation That Offers Superior Returns

INVESTMENT on land is a long-term plan and is considered to be the best investment option forever. We choose Mahogany, Moringa (Munaga), Anjeer(Fig), and Jafra (Sindhur) as our plantation project along with seasonal fruits and vegetables.

MAHOGANY is the species from which the original mahogany wood was produced. It is grown as a plantation tree and sold in timber markets all over India. An exceptionally durable and beautiful hardwood which is an ideal choice for luxurious furniture and fittings around the world.

MORINGA(Munaga) is also known as a super food and its leaves are known as green gold. It is fully packed with Calcium, multi-vitamins, minerals and rich in amino acids as well. It helps in overall fitness of the body, lowers premature ageing, blood-pressure, indigestion, bad cholesterol, vitamin deficiency and so many other health benefits. Wonderful food for bone health and highly rich in proteins. The whole plant including leaves, drumsticks and seeds are used in the medical field. It has huge demand world wide especially for the Moringa leaves powder.

ANJEER(Fig) is a delicious fruit which has got high medicinal properties and widely used as dry fruit in daily life for controlling diabetes, over weight, IBS and some other cardio vascular diseases. It also helps in calcium deficiency for women and children. Fig is a high source of potassium & calcium used for glowing skin. It has a huge demand as dry fruit and medical field as well.

JAFRA(Annatto) which is widely known as Sindhur tree. There is no exaggeration in calling it as a Queen of Colors & Cosmetics. Over the decades, it's been used in cosmetics worldwide and also used for art painting in America and more over it is used for treating various medical conditions also. It is most commonly used in food coloring and in addition used for enhancing the flavor of dishes. Apart from that, it has got high antioxidant, antibacterial and anticancer properties.
